Yarns

A large proportion of the rugs in B&C's collection are made using yarns that we have developed ourselves over the years.

The development of these fibers enables us to make rugs in which the yarn rather than the design determines the appearance of the rug.

Through our years of experience and constant development in this area, we can proudly say that we have developed materials that show the clear signature of B&C. We have developed yarns that get their unique look from the way they are dyed, felted or spun.

This development is an essential part of the design process, where a lot of attention is paid to the color, material thickness, material composition, etc. A minimal adjustment in one of these aspects can result in a maximum difference in the appearance of the rug that is eventually brought into the collection.

Handmade

A large part of the B&C collection is handmade. We have rugs that are knotted, woven or tufted by hand in different parts of the world.

The handknotted carpets gain their quality and beautiful appearance through the use of traditional techniques in combination with the most beautiful yarns. The craftsmanship and the traditional way of working catch the eye and allow us to go a step further in the development of the designs.

In addition to the handknotted rugs, we have rugs that are woven by hand. These rugs are characterized by the technique of flat weaving. We are always looking for new techniques and possibilities within flat weaving. For example, we have developed a double-weave technique that makes it possible to use large open-weave structures in the designs.

Furthermore, we have handtufted rugs. This quality offers totally different possibilities. When tufting, for instance a loop pile or a cut pile can be chosen. These two can also be combined very well in different designs to achieve a very surprising result.

All of these techniques are mastered by our partners already for generations onwards. The love for these skills, materials and colors are visible in each and every rug.

Design Studio

All Brink & Campman rugs are created in the design studio, which we proudly refer to as the heart of our company.

Our designers develop the unique collections, starting with a beautiful yarn, inspired by trends, or fascinated by the possibilities of a technique.

In the design process, we work with great passion and creativity, but we do not lose sight of craftsmanship, quality and sustainability.

We are convinced that only together, and in combination with our knowledge and expertise, can all these aspects lead to the high-quality rugs we love to make.

The fact that we bring a new collection every year gives us both the opportunity and the challenge to keep developing, renewing and improving.

An important aspect that we are still working on in the design studio and that we would like to develop even further is sustainability. The fact that we mostly work with natural materials such as wool is of course already an advantage but it is our goal to be on the lookout for opportunities to reduce our ecological footprint.

In/Outdoor

For the sunny season we have developed the bold and sportive DECK series in distinct colours. Let the spring and summer come and see the Deck in dazzling electric blue that reminds you of the Mediterranean sea, or the Deck spring green in a very vibrant green!

The successful LACE series has been complemented by the LACE tricolore series. Next to the subdued colour palette we have added three refined colourways. Beautiful colour combinations reminiscent of sun-drenched long evenings or groovy parties.

Both the DECK and the LACE series are hand-woven rugs and feature unique textures in which the enchanting colours perform at their best. The textures are soft to the touch and consist of woven recycled PET yarns that form an exciting pattern.

The beautiful handwoven rugs can be used both indoors and outdoors and are reversible. They are durable, water resistant, and easy to clean.

You can lay the rugs where ever you like, they all add that special extra to the floor.

Enjoy your rug – enjoy the sun!

Brands

In addition to our own unique B&C collection, we develop and produce collections for worldwide renowned brands in the home interior and fashion world.

Our design studio works closely with the designers of these brands to ensure that together we can create highly recognizable collections. Each brand has its own distinctive style and goes through individual developments that keep us motivated to develop the most beautiful collections. The cooperation with these brands ensures that we can proudly offer a wide range of rugs where, just as with the B&C collection, quality and eye for detail are of great importance.
