## DESIGN

| | |
|---|---|
| Tufted Pile Weight: | **15oz/yd2 (508 g/m2)** |
| Product Type: | **Tile** |
| Construction: | **Tufted** |
| Surface Texture: | **Textured Patterned Multi-Colored Loop** |
| Gauge: | **1/12 (47.00 rows per 10 cm)** |
| Density: | **6,752** |
| Weight Density: | **106,146** |
| Stitches Per Inch: | **12.0 (47.24 per 10 cm)** |
| Finished Pile Thickness: | **2.51 mm** |
| Total Thickness | **6.9 mm** |
| Dye Method: | **Solution Dyed** |
| Backing Material: | **EcoFlex ICT** |
| Fiber Type: | **Colorstrand® SD Nylon** |
| Pattern Repeat: | **Not Applicable** |
| Size: | **24" x 24" (0.609 m x 0.609 m)** |
| Installation Method: | **Vertical Ashlar, Quarter Turn, Multi Directional** |
| Stain Release Technology: | **Sentry Plus Stain Protection** |
| Soil Release Technology: | **Sentry Soil Protection** |
| Foot Traffic Recommendation TARR: | **Heavy** |

| Tufted Pile Weight: | **17 oz/yd2 (576 g/m2)** |
| Product Type: | **Tile** |
| Construction: | **Tufted** |
| Minimum Sq. Yd.: | **No Minimum** |
| Surface Texture: | **Textured Patterned Multi-Colored Loop** |
| Gauge: | **1/12 (47.00 rows per 10 cm)** |
| Density: | **6,725** |
| Weight Density: | **114,625** |
| Stitches Per Inch: | **12.0 (47.24 per 10 cm)** |
| Finished Pile Thickness: | **.091" (2.31 mm)** |
| Dye Method: | **Solution Dyed** |
| Backing Material: | **EcoFlex ICT** |
| Fiber Type: | **Colorstrand® SD Nylon** |
| Pattern Repeat: | **Not Applicable** |
| Size: | **24" x 24" (.6096 m x .6096 m)** |
| Installation Method: | **Quarter Turn, Vertical Ashlar, Brick Ashlar, Monolithic, Multi Directional** |
| Stain Release Technology: | **Sentry Plus Stain Protection** |
| Soil Release Technology: | **Sentry Soil Protection** |
| Foot Traffic Recommendation TARR: | **Heavy** |

FOREVER
STAIN FREE • SUSTAINABLE • BEAUTIFUL
Mohawk Group
duracolor
FOREVER STAIN FREE

# **STAIN RESISTANCE** THE SCIENCE

## Common Nylon

The most common stains are caused by acid-based substances that carry a negative charge. Since most fibers are positively charged, the negatively charged acid-based substances are attracted to the opposite charge of the fibers and bond, creating a stain.

## Duracolor Tricor

Duracolor Tricor fiber utilizes negatively charged polymers. The negative charge of the polymer ensures that the fiber, through its inherent characteristics, will repel negatively charged substances. The fiber never allows the common stain makers to bond, so the carpet resists the stain.

# TRUSTED PERFORMANCE

Duracolor fiber has set the standard of high-performance commercial carpet since 1992. With enhanced soil hiding and removal capabilities, Duracolor Tricor builds upon a fiber already trusted to perform in demanding environments. When compared head to head to competitive nylon products, Duracolor Tricor delivers trusted performance.

**Common Nylon Fiber**

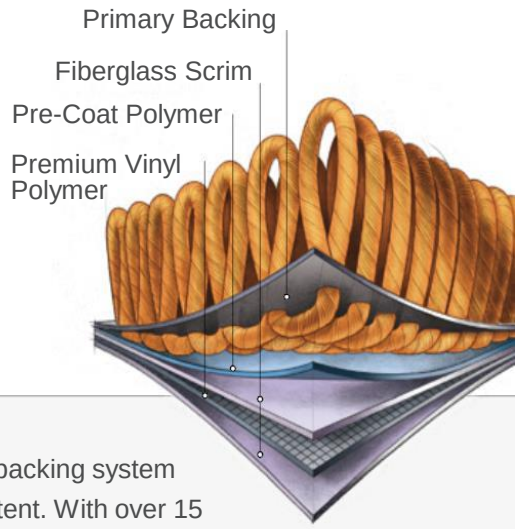
Mohawk Group

# Backing

Mohawk offers different backing options to meeting different installation requirement. Please contact your local sales rep for more details.

## EcoFlex™ ICT

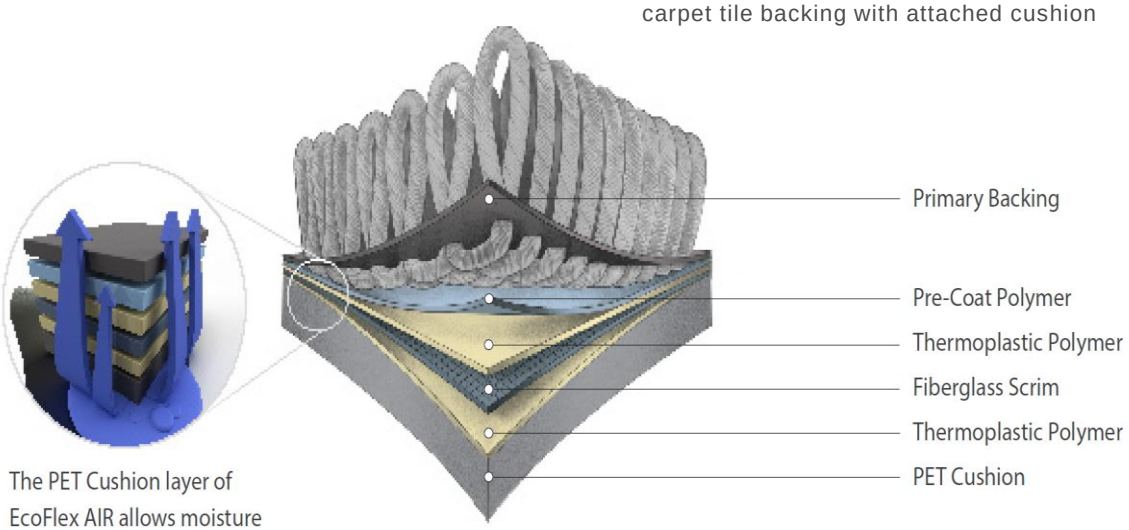
carpet tile backing



EcoFlex™ ICT is a premium vinyl modular backing system containing a minimum of 35% recycled content. With over 15 years in the marketplace, its ultra dense construction is engineered to offer superior performance while giving greater cushioning properties.

## EcoFlex™ Air

carpet tile backing with attached cushion



The PET Cushion layer of EcoFlex AIR allows moisture to safely escape through the seams of the tile.

Mohawk Group

**LIFETIME WARRANTY**

# Carpet Tile Warranty

Limited Commercial Lifetime Warranty – EcoFlex® ICT and EcoFlex® NXT

This limited warranty applies only to the original purchaser of Mohawk Group* carpet tiles for indoor commercial installations. This warranty applies only to EcoFlex® ICT and EcoFlex® NXT products.

The use of Mohawk Group branded adhesives is required to ensure optimum results and are the only approved adhesives warranted by Mohawk Group. Failure to use Mohawk Group branded adhesives will result in warranties being null and void. Substrates must be prepared using Mohawk Group's recommended floor preparation procedures.

Provided the designated carpet has been properly installed and maintained in the specified commercial location in strict accordance with Mohawk Group's instructions and procedures and subject to the limitations set forth herein, including the specifications and manufacturing tolerances established for the product, Mohawk Group warrants to the original Owner, the following:

## I. Items Under Warranty

Mohawk Group warrants the following for the normal useful life of the carpet**:

1. **Wear –** Carpet tiles will not wear more than 10% of their surface pile weight from abrasive wear. "Abrasive wear" means fiber loss from the carpet tiles through normal abrasion, not crushing or flattening of the carpet pile in any area, nor staining, soiling, fading, or change in carpet appearance, nor fiber loss due to abnormal usage of the carpet tiles;
2. **Static –** Carpet tiles will not give static discharges in excess of 3.5 KV when tested under AATCC Test Method 134 (Step);
3. **Edge Ravel/Zippering –** Carpet tiles will not edge ravel or zipper;
4. **Delamination** Carpet tiles will not delaminate (Chair pads are recommended for maximum appearance retention and to deter delamination); and
5. **Dimensional Stability –** Carpet tiles will not lose their dimensional stability per the AACHEN test ISO 2551.

## II. Limitations – This warranty does not include:

1. Disfigurement or damage caused by abnormal use or any damage to the carpet not arising out of a manufacturing defect in the carpet, including such disfigurement or damage as tears, burns, pulls, cuts, floods, excessive alkalinity, excessive moisture, installation on stairs, damage resulting from improper cleaning agents or methods, neglect, or damage in transit;
2. Edge ravel where carpet is cut for access to floor outlets and around trench header ducts;
3. Abuse by any athletic equipment such as roller skates, ski boots, or golf shoes;
4. Differential fading from light exposure, shading, pile crush, dye lot differences,or soiling;
5. Any condition that would have been visible upon inspection prior to the installation;
6. Any condition resulting from other than ordinary wear or from any use for which the product was not designed; and
7. Any issues related to moisture and alkalinity in the substrate. Moisture and pH testing are not the responsibility of Mohawk Group.
